

Professional Indemnity (PI) Coverage Highlights

- First Class Security - our key supporters are:

	S & P Rating
American International Group	AA+
Lloyd's (Syndicate 2526) via London Australia Underwriting	A
Chubb Insurance	AA
XL Insurance	A+

- Tailored Wordings

Unlike some Top-Up PI service providers, our wordings are basically follow-form of the underlying compulsory layer PI covers applicable in each State and Territory. By doing this we minimise potential coverage gaps and ensure many of the benefits of the typically broad compulsory layer coverages are transferred to the excess layer placements.

Critically, our coverage “triggers” follow each respective compulsory layer PI coverage policy.

- Facility Limits

With few exceptions, we can offer limit facility limits of up to **\$50 million any one claim**, supported by first-rate security. Our facility limits are the highest in the Australian market. With PI insurance for lawyers becoming more competitive, we expect many law firms to consider purchasing higher limits than those purchased in prior years. Our arrangements ensure a no-nonsense quick quotation turnaround.

- Experienced Personnel

Our broking personnel have significant experience in PI for law firms – with a number of key personnel having previously worked for insurance and reinsurance companies, underwriting compulsory layer PI and Top-Up PI insurance throughout Australia over the past 10 years. We know the issues facing insurers in writing this business and this has helped us to bring to you better outcomes.

- A Legal Industry Focused Approach

Unlike many other insurance brokers, our approach is industry focused – not just PI focused. We have specifically tailored a number of additional coverages that are typically purchased by law firms and offer competitive and compelling options for law firms of all sizes – sole practitioners, small to mid-tier firms and large regional and national firms – to consider better outcomes.

- Competitive Premiums

Try us – you will benefit!
